

Scotty & Gary's Science Club

St John's - After School Science Club – Year 4

From Tuesday, 6 November 2018 for 4 weeks, Gary & Scott will be returning with their 'Educational & Fun Science Club' at St John's Primary School. Over the four weeks, the children will have the opportunity to make / play and learn about different topics in the Science Curriculum.

There will be different activities each week, including plenty of hands on projects – a great fun way to learn.

The club will run after school from 3.30 to 4.15pm. The children will be supervised during the short break from the end of school to the start of the club.

The total cost per child is £16 for the 4 weeks, payable in CASH with the completed application form returned to the school office in an envelope.

Please book early as we are limited to 30 places in the club this time. All application forms must be back into school by Friday, 19 October 2018. Please see this website for further details.
